2. Meat and Food Inspector's Certificate of the Royal Society of Health.
3. Certificate in Sanitary Science as applied to Buildings and Public Works of the Royal Society of Health.
4. Smoke Inspector's Certificate of the Royal Society of Health.
5. Testamur of the Institute of Public Cleansing.
6. Associate Membership Examination of the Institution of Public Health Engineers.

Health Department,

July, 1961.

Mr. Mayor, Ladies and Gentlemen,

I have the honour to present to you my report on the health of the Borough of Crewe for the year 1960.

VITAL STATISTICS

During 1960, 19 infants died before reaching the age of 1 year giving an Infantile Mortality Rate of 20.9 per 1,000 live births. The number for 1959 (15) was the previous lowest figure ever recorded. 16 of these infants died before reaching an age of 28 days. One two months old infant died from Pneumonia and no infant death was ascribed to Infectious Disease, although one infant died from Gastro Enteritis and Diarrhoea.

The total number of deaths recorded 540 is a reduction on the figure of 599 recorded in 1959. The death rate per 1,000 resident population having increased from 10.2 in 1956 to 12.05 in 1958 and falling to 11.7 in 1959 now falls to 10.5. The England and Wales death rate also fell from 11.6 in 1959 to 11.5 in 1960. 195 of these deaths occurred in persons aged 75 years or over, this figure being a reduction of 31 on the 1959 figure. 9 deaths were attributed to accidents and 7 persons committed suicide. 5 persons died from Pulmonary Tuberculosis and 88 persons died from Cancer, 15 of these being Lung Cancer. This latter figure is three less than the number of Lung Cancer deaths recorded in 1959 - i.e. a third year in succession showing a reduction. No death was ascribed to "Pregnancy, Childbirth or Abortion".

INFECTIOUS DISEASES

The notified incidence of Measles - 41 persons - demonstrates the 2 year periodicity of this disease (in 1959 1,081 persons were notified) and Whooping Cough notifications were high at 145 persons, Scarlet Fever notifications (80) were similar to the 1959 figure. No case of either Diphtheria or Poliomyelitis was notified, and the Dysentery figure of 33 is an increase on the 1959 figure. The number of new cases of Pulmonary Tuberculosis (27) represents the value of the visit of the Mass Miniature Radiography Unit to the town during the year, and a copy of Dr. Rimington's Report on the Unit's work is included. B.C.G. Vaccination of 13 year old school children continued very satisfactorily and the acceptance rate was well maintained at about 80%.

Considerable progress was made with Poliomyelitis Vaccination during 1960 and a table has again been included to show the position at the end of the year.

The 90 cases of Food Poisoning notified occurred in a single outbreak at the County Training College in the Autumn.

In accordance with circular 1/61 of the Ministry of Health, the water supply of the area has been satisfactory in quality and quantity. Details of the frequent bacteriological examinations and a sample chemical analysis are included in the report. The water is not liable to have plumbo-solvent action and all dwelling houses are supplied from public water mains direct to the house.

The Corporation own a large modern public swimming baths, mains water being used to fill these baths which is treated by break-point chlorination. Frequent bacteriological examinations are made, and have been entirely satisfactory.

The only part of the Borough in which sewage disposal is urgently needed is the North Coppenhall Area in which a number of premises have septic tanks and the remaining premises have pail closets.

I remain, Mr. Mayor, Ladies and Gentlemen,

Your obedient Servant,

D.G. CRAWSHAW.

STATISTICS AND SOCIAL CONDITIONS OF THE AREA

| 1959 | 14 | 2 | 5 | - |
| 1960 | 27 | 1 | 5 | - |

The following is a summary of the four quarterly returns which are rendered to the County Medical Officer and which indicate the number of cases remaining on the register at 31st December, 1960.

| | <u>Pulmonary</u> | | <u>Non-Pulmonary</u> | |
|---|------------------|-----------|----------------------|-----------|
| | <u>M.</u> | <u>F.</u> | <u>M.</u> | <u>F.</u> |
| No. of cases on Register of Notifications on 1st January, 1960 | 146 | 124 | 21 | 13 |
| No. of cases notified for the first time during the year | 17 | 10 | 1 | - |
| No. of cases transferred from other districts | 4 | 2 | - | - |
| No. of cases restored to Register | 1 | 1 | - | - |
| No. of cases removed from Register during the year on account of having:- | | | | |
| (a) Recovered | 6 | 10 | 3 | 5 |
| (b) Removed from district | 3 | 2 | 1 | - |
| (c) Died | 2 | 3 | - | - |
| (d) Diagnosis not established | - | - | - | - |
| (e) Lost sight of | 9 | 4 | 3 | 2 |
| No. of cases remaining on the Register on 31st December, 1960 | 148 | 118 | 15 | 6 |

Of the 5 cases listed under (c) above, 3 died from a primary cause other than tuberculosis.

VACCINATION AND IMMUNISATION

Vaccination against Smallpox

The number of vaccinations reported to me during the year was 420 showing an increase of 5 on the figures for 1959.

| | Under 1 year | 1 year | 2 - 4 years | 5 - 14 years | 15 years and over | Total |
|---------------------|-----------------|--------|----------------|-----------------|----------------------|-------|
| Primary Vaccination | 325 | 13 | 18 | 10 | 37 | 403 |
| Re-Vaccination | 1 | - | - | 3 | 13 | 17 |
| Totals | 326 | 13 | 18 | 13 | 50 | 420 |

Immunisation

During the year cards received from Medical Practitioners showed that 535 children were immunised against diphtheria. In addition 250 children received a boosting dose to improve their immunity.

The corresponding figures for 1959 were 545 and 137.

NUMBER OF CHILDREN WHO HAD COMPLETED A FULL COURSE OF IMMUNISATION
BETWEEN 1st JANUARY, 1946, AND 31st DECEMBER, 1960

(According to Health Department Records)

| Age at 31.12.60. i.e. born in year | Under 1 Year (Born 1960) | 1 Year (Born 1959) | 2 Years (Born 1958) | 3 Years (Born 1957) | 4 Years (Born 1956) | 5 - 9 Years (Born 1951 - 1955) | 10 - 14 Years (Born 1946 - 1950) | Total Under 15 Years |
|---|-----------------------------|-----------------------|------------------------|------------------------|------------------------|-----------------------------------|-------------------------------------|-------------------------|
| Last complete course of injections Whether primary or booster | | | | | | | | |
| A. 1956 - 1960 | 358 | 378 | 323 | 400 | 454 | 574 | 60 | 2,547 |
| B. 1955 or earlier | - | - | - | - | - | 1,653 | 2,460 | 4,113 |
| TOTALS | 358 | 378 | 323 | 400 | 454 | 2,227 | 2,520 | 6,660 |
| Estimated child population 1960 | 3,992 | | | | | | 8,147 | |

Under 5 years Between 5-15 years

Estimated percentage of child population
immunised at 31st December, 1960.
(According to records held in the
Divisional Office).

48%

58%

No. of cases of diphtheria in children under
15 years of age notified during the year

-

-

Number of children who completed a course of inoculation with pertussis
vaccines, (including alumprecipitated vaccines and vaccines combined with
diphtheria prophylactic) during 1960.

| Age at date of final injection | | | TOTAL |
|--------------------------------|-------------|--------------|-------|
| Under 1 year | 1 - 4 years | 5 - 14 years | |
| 351 | 113 | 44 | 508 |

VACCINATION AGAINST POLIOMYELITIS
(According to Records Received)

| Class | Number vaccinated with 3rd (Booster) injection | Number vaccinated with 2 injections | Number awaiting vaccination at 31.12.60. |
|--|--|-------------------------------------|--|
| Children born in the years 1943 to 1960 and newly reaching six months of age during the year | 1,492 | 719 | 3 |
| Persons born 1920 - 1932 | 233 | 593 | - |
| Young persons born in years 1933 to 1942 | 2,519 | 310 | - |
| Expectant Mothers | 280 | 185 | - |
| General Practitioners & families | - | - | - |
| Ambulance Staff and families | - | - | - |
| Hospital Staff, Medical Students & their families | - | - | - |
| Totals | 4,524 | 1,807 | 3 |

MEDICAL EXAMINATIONS

During the year, 177 persons were medically examined. Of these 99 were examined in conjunction with the Corporation's Superannuation and Sickness Pay Schemes, 70 were County Staff or persons seeking entry to a Training College, and 8 were of persons applying for a Taxi Driver's Licence.

MORTUARY

During the year 82 bodies were taken to the Mortuary and 76 Post Mortem examinations were carried out.

MORAL WELFARE

I am indebted to the Secretary of the Crewe and District Committee for Prevention and Rescue work which deals with moral welfare in Crewe and the surrounding area, and also maintains the St. Hilda's Home, 71, West Street Crewe for the following information:-

During the year over 100 women and girls, as well as 37 babies have been given help; 34 girls and 31 babies have passed through the Home, most of the mothers staying for a period of three months, before and after the birth of their babies. Of those who have been at St. Hilda's, 28 girls returned to their own homes, 7 of them taking their babies with them; 3 passed on to other homes, and 3 others went into lodgings. 20 babies were placed for adoption. 2 babies were stillborn.

Of the outdoor work which has been done in this area, 27 girls were sent to Mother and Baby Homes, staying the usual time.

WATER SUPPLY

In addition to the satisfactory samples taken by the Chief Public Health Inspector's staff, 13 samples of filtered water were taken by the Mid. & South East Cheshire Water Board.

The following is submitted as a typical report on a sample submitted by the Chief Public Health Inspector:-

"Examination of the sample of water received on the 25th August, 1960, gave the following results:-

| | | |
|-------------------------------|-----|------------------------|
| Non Volatile Matter | ... | 154 parts/1,000,000 |
| Free & Saline Ammonia | ... | None Detected |
| Albuminoid Ammonia | ... | 0.032 parts/1,000,000 |
| Oxygen absorbed 3 hrs at 37°C | ... | 0.0517 parts/1,000,000 |
| Chloride as Chlorine | ... | 20.0 " " |
| Nitrites as Nitrogen | ... | None Detected |
| Nitrates as Nitrogen | ... | 0.06 parts/1,000,000 |
| Heavy Metals | ... | Traces Fe and Cu |
| pH | ... | 7.4 |

Probable number of Coli Aerogenes organisms per 100 ml. = Nil

Viable Count at 37°C = Nil per ml.

Viable Count at 22°C = Nil per ml.

No C Welchii present in 50 mls. of water

CONCLUSION:- From the above chemical and bacteriological data we consider this water to be suitable for human consumption."

NATIONAL ASSISTANCE ACT, 1948 - SECTION 47

No case was dealt with during 1960.

FOOD POISONING

90 cases of food poisoning were notified during the year.

MANCHESTER REGIONAL HOSPITAL BOARD

No. 3 Mass Radiography Unit,
St. Thomas' Hospital,
Stockport.

REPORT ON THE SURVEY OF CREWE, 1960

The visit to Crewe and district was made between the 4th August and the 23rd November, 1960. It embraced the Borough of Crewe and the village of Haslington, but not the village of Alsager, which had been included in the previous visits in 1956, 1951 and 1949. Alsager was visited in May, 1961 and will be the subject of a separate report.

During the period, the Unit set up at the following centres:-

The Yoxall Institute, Haslington
Calmic Ltd., Crewe Hall, Crewe
Midland Rollmakers Ltd., Crewe
Rolls Royce Ltd., Crewe
Crosville Motors Ltd., Crewe
County Clothes Ltd., Crewe
Smethurst & Holden Ltd., Crewe
The Railway Hospital, Mill Street, Crewe
The Lecture Hall, Locomotive Works, Crewe
C. Doody & Son Ltd., Crewe.
C.W.S. Clothing Factory, Crewe.

At certain of the above industrial centres, the employees of other firms in the vicinity were allowed to attend. Open public sessions, including evening sessions, were arranged at the Yoxall Institute, The Railway Hospital and the Lecture Hall at the Locomotive Works. The public sessions were widely advertised by leaflets distributed to householders and through schools, by posters, announcements in the local newspapers and films at the local cinemas.

In comparing the present report with that of 1956, it will be noted ~~that~~, in addition to the exclusion of the centres at Alsager and Radway Green, the Training College Crewe, and Nash Kelvinator Ltd., are not

included in this report. The visit to the Training College had to be made in May, 1960, before the end of the College year in July. The firm of Nash Kelvinator Ltd. closed down their Crewe Works and moved their plant to another part of the country in the period between 1956 and 1960. In accordance with the Board's policy, school children and expectant mothers were also excluded.

The results of the Survey are summarised in the following tables. The figures shown in Table I were compiled by the General Register Office from a ten per cent sample of the record cards completed by the Unit during the Survey. The figures give a sufficiently accurate analysis of the age and sex distribution of the examinees, but some degree of error is inevitable in small groups such as 'Doctors' Referrals'. The figures given in the other tables are accurate in accordance with the Unit records.

| TABLE I Persons Examined | 15-19 | | 20-24 | | 25-34 | | 35-44 | |

COMMENTS

- 1) The number of persons examined during the 1960 Survey, shows a drop of approximately eight hundred on the 1956 figures, after due allowance has been made for the exclusion of Alsager, school children and the Training College. No account has been taken of the closing of the Nash Kelvinator factory, which employed about one thousand people, and some reduction in the Locomotive Works labour force. Obviously many of these people would find work in other factories in the area, but it is impossible to calculate the proportion.
- 2) The number of pulmonary tuberculosis cases requiring treatment or close observation dropped to 31 from the 55 discovered in 1956, giving an incidence rate of 1.7 per 1,000 examinees, compared with 2.2 per 1,000 in 1956. This reduction is in line with the declining incidence throughout the country. Only four cases could be described as far advanced, and the majority had moderate to minimal lesions which would probably respond well to treatment.
- 3) Five cases of carcinoma bronchus were detected - all men above middle age. Four of these were suitable for, and had, surgical treatment.
- 4) All the abnormal cases were referred to their own doctors, the majority for further investigation at the Chest Clinic or Hospital. Thanks should be extended to all the physicians and surgeons concerned and particularly to Dr. A. Fleming and his chest team for their help and co-operation in dealing with the majority of these new cases.

In conclusion, the Unit would like to place on record its thanks to the Medical Officer of Health and his staff for their assistance during the Survey, and to the Superintendent of the Locomotive Works and the Area Medical Officer for their active co-operation in all matters including the use of premises for the examination of members of the public and employees from firms in the vicinity.

ANNUAL REPORT OF THE
CHIEF PUBLIC HEALTH INSPECTOR
FOR THE YEAR ENDED
31ST DECEMBER 1960

Chief Public Health Inspector's Department,
Municipal Buildings,
C R E W E.

20th July, 1961.

To the Mayor, Aldermen and Councillors
of the Borough of Crewe.

Mr. Mayor, Ladies and Gentlemen,

I have the honour to present my thirteenth annual report on the work of the public health inspectorate. The year under review has been one of continued activity in all phases of the work.

Work on the present slum clearance programme has progressed satisfactorily. The Central Ward No. 6 (Liverpool Street/Forge Street) Clearance Area, 1960, comprising 186 dwelling houses was declared and 14 houses were dealt with as individual unfit premises. Whilst excellent progress has been made it must be emphasised that slum clearance must necessarily be regarded as a continuous process. As unfit dwellings are closed or demolished others owing to age or neglect gradually deteriorate and finally reach the stage of unfitness which warrants their inclusion in future slum clearance proposals. It is, therefore, advisable for intending purchasers of property of this type to make judicious enquiries and seek professional advice before committing themselves to purchase.

Thirty-six applications were received and approved under the provisions of the House Purchase and Housing Act, 1959 for improvement grants to modernise suitable houses. Since the scheme came into operation some 200 applications have been approved and at the close of the year work of modernising 168 dwellings had been completed.

The total cost of the work on the 200 dwellings will be £39,829 of which £30,013 will rank for grant purposes. This system of preserving and improving existing dwellings has much to commend it but despite the Government's efforts of simplifying and improving the grant conditions the response has been disappointing particularly in regard to tenanted properties. In Crewe, of the 200 applications approved, only 6 relate to tenanted houses.

Figures published by the Ministry of Housing and Local Government reveal that, apart from council owned properties, far more grants, both discretionary and standard, are being made in respect of owner-occupied property than tenanted. In the case of discretionary grants the ratio of owner-occupied to tenanted is 2:1, whereas in the case of standard grants it is 4:1. To sum up, in 1960, out of a total of 125,807 grants only 24,211 were for the improvement of privately owned tenanted houses.

Whilst it is pleasing to note that owner-occupiers are taking advantage of the scheme it has been of little value to the tenants of rented houses and has done little to improve the standards of amenity of the very large stock of property in this class.

The inspectorate have continued to devote as much time as possible to the inspection of food premises of all types. All plans of food premises submitted to the Council are scrutinised for compliance with the various Acts and Regulations and where amendments are necessary the owner or architect is advised of the department's requirements before the plans are submitted to the appropriate Committees. This system has worked very well indeed and architects and owners have co-operated to the full. Existing premises present many problems connected with matters such as the suitability of the premises generally, restricted accommodation and the question of expense of bringing them up to a modern standard. Many premises have been brought up to a good standard whilst others have only been made to comply with the law in its narrowest sense. It must be stressed that there is still great room for improvement. A good structural standard is important but this is of no avail unless personal hygiene is of the very highest order. In this matter both employers and employees have a part to play but if the employee is to be expected to take his full share of responsibility in this respect management must set an example.

Since 1949, in co-operation with the Department of Scientific and Industrial Research, the department has made regular monthly recordings of the degree of air pollution in the Borough. Full details of these are given in the section of the report dealing with Atmospheric Pollution. In this regard I would once again like to thank the Area Chemist of British Railways (Midland Region), R. Emrys Jones, Esq., A.M.C.T., F.R.I.C., and his staff for their valued assistance and co-operation.

In conclusion, I wish to express my thanks to His Worship the Mayor, the Chairman and members of the Health Committee, members of the staff and to other chief officers and their staffs for their co-operation.

I have the honour to be,

Your obedient servant,

J. GASKELL.

Chief Public Health Inspector.

SANITARY CIRCUMSTANCES OF THE AREA

PUBLIC CLEANSING

The removal of household and trade refuse is based on a weekly collection service and with the exception of holiday periods, this frequency of collection was maintained generally throughout the Borough.

The Cleansing Department operates a Refuse Disposal Plant, a Kitchen Waste Processing Plant and has a separate Garage and Workshop.

Twelve vehicles (including one spare vehicle) are employed on the collection of household and trade refuse and nightsoil, in addition to three vehicles used in connection with refuse disposal.

| | | | |
|-------------------------------|-----|-----|--------------------|
| Household refuse collected | ... | ... | 13,816 tons |
| Trade refuse collected | ... | ... | 1,441 tons |
| Total refuse collected by the | | | |
| Department during the year | ... | ... | <u>15,257 tons</u> |

2,834 tons of shop and factory refuse were also brought to the Refuse Disposal Works for disposal, making a total of 18,091 tons of refuse dealt with during the year. 46.5% of the total refuse passed through the works while the remainder was disposed of by controlled tipping.

The estimated amount of nightsoil collected during the year was 156 tons.

A separate Annual Report is issued for the Public Cleansing services in the Borough.

SANITARY ACCOMMODATION

There are still a number of waste water closets and privy pails in the Borough. The majority of the waste water closets are in properties included in the current clearance programme while the pails are in the present unsewered northern area of the town.

One set of water closet fittings was issued during the year for the conversion of a waste water closet.

WATER SUPPLY

The water supply to the district is provided by the Mid. and South East Cheshire Water Board.

During the year twelve samples of water were submitted for bacteriological examination and chemical examination. One sample was unsatisfactory on account of high sediment content. Immediate notification was sent to the Mid. and South East Cheshire Water Board who arranged to flush the mains, after which the supply proved satisfactory.

NUMBER AND NATURE OF COMPLAINTS

The Department received 754 complaints during the year from householders, shopkeepers, and others relating to numerous matters, as set out in the table below.

NATURE OF COMPLAINT

| | | | | | | |
|-----------------------------------|----|----|----|----|----|-----|

INFECTIOUS DISEASE AND DISINFECTION

Disinfection of premises is carried out by formaldehyde spray or formalin vapour generators. Infected bedding and other articles are disinfected by steam or formalin as the circumstances demand.

| | | | | | | |
|--|----|----|----|----|----|----|
| Number of premises visited where a notifiable disease has occurred | .. | .. | .. | .. | .. | 83 |
| Number of rooms disinfected | .. | .. | .. | .. | .. | 5 |
| Number of cases where bedding, etc., was disinfected by steam at request of owners | .. | .. | .. | .. | .. | 26 |
| Number of Library Books disinfected - | | | | | | |
| (a) from Public Library | .. | .. | 71 | | | |
| (b) from Private Libraries | .. | 3 | .. | 74 | | |

During the year, 17 bottles of disinfecting fluid, amounting to 2 gallons, were supplied free of charge for use at premises where cases of infectious disease had occurred.

DISINFESTATION

The following table shows the number of premises treated during 1960.

| | Number found to be infested | | Number of Premises Disinfested |
|--|-----------------------------|-------|--------------------------------|
| | Premises | Rooms | |
| Council Houses | 1 | 2 | 1 |
| Other Houses | 12 | 37 | 12 |
| Cases confirmed after complaint of infestation | 4 | - | - |
| Cases found by Public Health Inspectors | 9 | - | - |
| Houses disinfested by Corporation .. | - | - | 13 |
| Houses disinfested by Contractors .. | - | - | - |

The work of disinfestation was carried out by the use of D.D.T. and patent fumigant solutions.

In addition to the premises listed above, 19 houses were treated for infestations of beetles and 49 houses for ants.

SWIMMING BATHS

The only Public Swimming Baths in the Borough are owned by the Corporation and contain two swimming pools, slipper or private wash baths and various other amenities.

During the year, 12 samples of bath water were submitted for bacteriological and chemical examination and all proved satisfactory.

OFFENSIVE TRADES

The following offensive trades are carried on in the Borough.

| | | | | |
|-------------------------------|----|----|----|---|
| Rag and Bone Dealers | .. | .. | .. | 3 |
| Gut Scrapers | .. | .. | .. | 1 |
| Bone Boiler and Fat Extractor | .. | .. | .. | 1 |

In addition to the above, 28 persons are registered as Dealers in Old Metal.

RAG FLOCK

Number of licensed premises used for the manufacture of, or storage of Rag Flock -

Number of registered premises where filling materials are used 2

COMMON LODGING HOUSES

There are two Common Lodging Houses in the Borough, situated at 175 and 177 Market Street, and the following table shows the number of beds available at each house.

| Situation | | | | No. of Beds | Accommodation available for |
|------------------------------|-------------------|----|----|----------------|--------------------------------|
| (1) | 175 Market Street | .. | .. | 10 | Male and Female |
| (2) | 177 Market Street | .. | .. | 26 | Male |
| Total number of beds | | | | 36 | |

The number of persons who used the lodging houses during the year is given below with comparative figures for the two proceeding years.

| | | | | <u>Adults</u> | | <u>Children</u> | |
|------|----|----|----|---------------|----------------|-----------------|----------------|
| | | | | <u>Males</u> | <u>Females</u> | <u>Males</u> | <u>Females</u> |
| 1960 | .. | .. | .. | 7,149 | 1,284 | - | - |
| 1959 | .. | .. | .. | 7,595 | 1,225 | - | - |
| 1958 | .. | .. | .. | 7,100 | 876 | - | - |

HOUSING STATISTICS

Number of New Houses erected during the year:

| | | | | | | |
|-----|----------------------------|----|----|----|----|-----|
| (1) | By the Local Authority | .. | .. | .. | .. | 73 |
| (2) | By other authorities | .. | .. | .. | .. | - |
| (3) | By other bodies or persons | . | .. | .. | .. | 206 |

1. Inspection of Dwelling Houses during the year:

(1) (a) Total number of houses inspected for housing defects (under Public Health Act or Housing Act) -

| | | | | | |
|------|---|----|----|----|-----|
| (i) | On General Inspection | .. | .. | .. | 116 |
| (ii) | Slum Clearance - Second Five Year Programme | .. | .. | .. | 189 |
| | Total | .. | .. | .. | 305 |

(b) Number of inspections made for the purpose -

| | | | | | |
|------|---|----|----|----|-----|
| (i) | General inspections | .. | .. | .. | 282 |
| (ii) | Slum Clearance - Second Five Year Programme | .. | .. | .. | 428 |
| | Total | .. | .. | .. | 710 |

(2) (a) Number of Dwelling houses (included under the sub-heading (1) above) which were inspected and recorded under the Housing Consolidation Regulations, 1925 -

| | | | | | |
|------|---|----|----|----|-----|
| (i) | On General Inspection | .. | .. | .. | 11 |
| (ii) | Slum Clearance - Second Five Year Programme | .. | .. | .. | 189 |
| | Total | .. | .. | .. | 200 |

(b) Number of inspections made for the purpose -

| | | | | | |
|------|---|----|----|----|-----|
| (i) | General inspections | .. | .. | .. | 30 |
| (ii) | Slum Clearance - Second Five Year Programme | .. | .. | .. | 428 |
| | Total | .. | .. | .. | 458 |

Housing Statistics, cont.

(3) Number of dwelling houses found to be in a state so dangerous or injurious to health as to be unfit for habitation -

| | | | | | | | | |
|------|---|-----|----|----|-----|--|--|--|
| (i) | On general inspections | .. | .. | .. | 11 | | | |
| (ii) | Slum Clearance - Second Five Year Programme | .. | .. | .. | 189 | | | |
| | Total | ... | .. | .. | 200 | | | |

(4) Number of dwelling houses (exclusive of those referred to under the preceding sub-heading) found not to be in all respects reasonably fit for human habitation -

Total 105

2. Remedy of Defects during the year without service of Formal Notices

Number of defective dwelling houses rendered fit in consequence of informal action by the Local Authority or their officers

.. .. 83

3. Action under Statutory Powers during the Year

(a) Proceedings under Sections 9 and 10 of the Housing Act 1957 -

(1) Number of dwelling houses in respect of which notices were served requiring repairs Nil

(2) Number of dwelling houses which were rendered fit after service of formal notices -

(a) By owners Nil

(b) By Local Authority in default of owners Nil

(b) Proceedings under Public Health Acts -

(1) Number of dwelling houses in respect of which notices were served requiring defects to be remedied . .. 32

Housing Statistics, cont.

3. (b) Proceedings under Public Health Acts -

(2) Number of dwelling houses in which defects were remedied after service of formal notices -

(a) By owners 24

(b) By Local Authority in default of owners Nil

(c) Proceedings under Sections 16 and 17 of the Housing Act, 1957 -

(1) Number of dwelling houses in respect of which demolition orders were made 10

(2) Number of dwelling houses demolished in pursuance of demolition orders 6

(3) Number of undertakings to carry out works in lieu of demolition accepted by the Council -

(4) Number of dwelling houses in respect of which closing orders were made 4

4. Housing Act 1957 - Part IV - Overcrowding

(a) (1) Number of dwellings overcrowded at the end of the year 5

(2) Number of families dwelling therein 6

(3) Number of persons dwelling therein 46

(b) Number of new cases of overcrowding reported during the year Nil

(c) (1) Number of cases of overcrowding relieved during the year 1

(2) Number of persons concerned in such cases 6

(d) Particulars of any cases in which dwelling houses have again become overcrowded after the local authority have taken steps for the abatement of overcrowding Nil

HOUSING CLEARANCE PROGRAMME

The following table shows the progress made since 1955 to the end of the year with the Slum Clearance Programmes.

| Description of Property | No. of houses in Area | Date of Representation Report | Date of Confirmation of Order | No. of families rehoused 3/11/55 - 31/12/60 | No. of houses demolished to 31/12/60 |

FACTORIES ACT 1937

1. INSPECTIONS for purposes of provisions as to health (including inspections made by Public Health Inspectors).

| Particulars | Number on Register | Inspections | Number of | |
|---|--------------------|-------------|-----------------|----------------------|
| | | | Written Notices | Occupiers Prosecuted |
| (i) Factories in which Sections 1, 2, 3, 4 and 6 are to be enforced by Local Authorities | 11 | 9 | - | - |
| (ii) Factories not included in (i) in which Section 7 is enforced by the Local Authority | 169 | 78 | 2 | - |
| (iii) Other premises in which Section 7 is enforced by the Local Authority (excluding outworkers premises). | 10 | 5 | - | - |
| TOTAL | 190 | 92 | 2 | - |

2. CASES in which defects were found

| Particulars | Number of cases in which defects were found | | | |
|------------------------------|---|----------|----------------------------|----------------------------|
| | Found | Remedied | Referred To H.M. Inspector | Referred By H.M. Inspector |
| Want of Cleanliness (S.1.) | - | - | - | - |
| Sanitary Conveniences (S.7.) | | | | |
| (a) Insufficient | - | - | - | - |
| (b) Unsuitable or defective | 2 | 2 | - | 1 |
| (c) Not separate for sexes | - | - | - | - |
| TOTAL | 2 | 2 | - | 1 |

3. OUTWORKERS. List required by Section 110 received relating to 44 outworkers all engaged in making wearing apparel.

RODENT CONTROL

The Corporation employ two full-time rodent operators and the extermination methods employed are poisoning, gassing and trapping. The following table summarises the work carried out:-

| | Type of Property | | | | Total |
|---|------------------|-----------------|-----------------|---------------|-------|
| | Local Auth. | Dwell. Hses. | Agric. Prop. | Bus. Pres. | |
| <u>NUMBER OF PROPERTIES INSPECTED:</u> | | | | | |
| (1) Primary Inspections: | | | | | |
| (a) as a result of notification | 12 | 196 | - | 37 | 245 |
| (b) otherwise | 6 | 317 | - | 3 | 326 |
| (2) Re-inspections: | | | | | |
| (a) as a result of notification | 4 | 18 | - | 6 | 28 |
| (b) otherwise | 1 | 38 | - | - | 39 |
| Total properties inspected . .. | 23 | 569 | - | 46 | 638 |
| <u>NUMBER OF PROPERTIES FOUND TO BE INFESTED BY RATS</u> | | | | | |
| (1) On Primary inspections: | | | | | |
| (a) Major | - | - | - | - | - |
| (b) Minor | 11 | 346 | - | 20 | 377 |
| (2) Reinfestations: | | | | | |
| (a) Major | - | - | - | - | - |
| (b) Minor | 4 | 41 | - | - | 45 |
| <u>NUMBER OF PROPERTIES FOUND TO BE INFESTED BY MICE</u> | | | | | |
| (1) On Primary inspections | 7 | 128 | - | 25 | 160 |
| (2) On reinspections | 1 | 14 | - | 6 | 21 |
| Total infestations found | 23 | 529 | - | 51 | 603 |
| <u>NUMBER OF INFESTED PROPERTIES TREATED BY LOCAL AUTHORITY</u> | | | | | |
| (1) Primary treatments: | | | | | |
| (a) for rats | 8 | 252 | - | 15 | 275 |
| (b) for mice | 3 | 110 | - | 22 | 135 |
| (2) Treatments for reinfestation | | | | | |
| (a) for rats | 4 | 35 | - | - | 39 |
| (b) for mice | 1 | 14 | - | 8 | 23 |
| Total treatments | 16 | 411 | - | 45 | 472 |

NOTE: A treatment means a complete treatment for the destruction of rats and mice and includes not only the initial treatment, but when necessary, post-baiting and follow-up treatment.

RODENT CONTROL, Cont

Following the treatments carried out, 737 rats and 643 mice were picked up, whilst the estimated kill was 2,459 rats and 1,089 mice.

During the year the rodent operators paid 5,235 visits in connection with the inspection and treatment of premises.

Two maintenance treatments of the sewers were also carried out. 960 manholes were baited and 459 takes of poison bait were recorded, showing an estimated kill of 1,620 rats.

PET ANIMALS ACT 1951

There are four premises in the Borough, licensed for the sale of pet animals. All these premises comply with the recommended conditions of the Royal Society for the Prevention of Cruelty to Animals, which were adopted by the Council.

INSPECTION AND SUPERVISION OF FOOD

FOOD HYGIENE

Food hygiene has continued to receive the attention of the public health inspectorate and 1,433 visits have been made for this purpose.

All plans of food premises submitted to the Borough Engineer are scrutinised for compliance with the various Acts and Regulations and where amendments are necessary the owner or architect is advised and corrections made before submission to the appropriate Committees. This system has worked very well indeed and architects and others have co-operated fully with the Department.

The following is a list of the various types of food premises in the Borough.

Number and type of food premises

Premises requiring registration

| | | | | | | |
|---|----|----|----|----|----|-----|
| For the manufacture of Ice Cream | .. | .. | .. | .. | .. | 2 |
| For the storage and sale of Ice Cream | .. | .. | .. | .. | .. | 205 |
| For the preparation and manufacture of sausages or pressed, potted or preserved meat, etc. | .. | .. | .. | .. | .. | 23 |
| Dairies | .. | .. | .. | .. | .. | 10 |

Other premises

| | | | | | | |
|-----------------------------------|----|----|----|----|----|-----|
| Fried Fish Shops | .. | .. | .. | .. | .. | 45 |
| Wet Fish Shops | .. | .. | .. | .. | .. | 8 |
| Pakehouses | .. | .. | .. | .. | .. | 17 |
| Butchers Shops | .. | .. | .. | .. | .. | 60 |
| Tripe Shops | .. | .. | .. | .. | .. | 1 |
| Restaurants, Cafes, etc | .. | .. | .. | .. | .. | 27 |
| School Canteens | .. | .. | .. | .. | .. | 23 |
| Factory Canteens | .. | .. | .. | .. | .. | 25 |
| Licensed premises - | | | | | | |
| Full licences | .. | .. | .. | .. | .. | 54 |
| Beer licences | .. | .. | .. | .. | .. | 15 |
| Clubs | .. | .. | .. | .. | .. | 28 |
| Off licences | .. | .. | .. | .. | .. | 19 |
| Grocery and Confectionery Shops. | .. | .. | .. | .. | .. | 239 |
| Greengrocery | .. | .. | .. | .. | .. | 65 |
| Health Food Stores and Herbalists | .. | .. | .. | .. | .. | 3 |

MILK SAMPLING

During the year 132 samples of designated milks were taken for bacteriological examination and the following table provides details of the results.

| No. of Samples | Description of Milk | Methylene Blue Test | | Phosphatase Test | | Turbidity Test | |
|----------------|-------------------------------|---------------------|--------|------------------|--------|----------------|--------|
| | | Passed | Failed | Passed | Failed | Passed | Failed |
| 31 | Tuberculin Test (Pasteurised) | 31 | - | 29 | - | - | - |
| 1 | Tuberculin Tested | - | 1 | - | - | - | - |
| 76 | Pasteurised | 76 | - | 63 | 1 | - | - |
| 24 | Sterilised | - | - | - | - | 21 | 3 |
| 132 | TOTALS | 107 | 1 | 92 | 1 | 21 | 3 |

The following table shows the average fat and solids-not-fat contents of milk samples taken under the Food and Drugs Act 1955.

SUMMARY OF CHEMICAL ANALYSES OF MILK SAMPLES

| PERIOD | No. of samples examined | Averages | |
|------------------------------------|-------------------------|------------|------------------|
| | | Milk Fat % | Solids-not-Fat % |
| Quarter ended 31st March, 1960 | - | - | - |
| Quarter ended 30th June, 1960 | 8 | 3.24 | 8.69 |
| Quarter ended 30th September, 1960 | 10 | 3.58 | 8.63 |
| Quarter ended 31st December, 1960 | - | - | - |
| YEAR 1960 | 18 | 3.43 | 8.66 |

ICE CREAM

Ice cream was manufactured at two premises in the Borough in 1960, while 205 premises were registered for the storage and sale of ice cream. A complete cold mix is used at both manufacturing premises in the Borough.

28 samples of ice cream were submitted for bacteriological examination and the results of the examination are shown below.

| Ice Cream | Methylene Blue Test Grading | | | | Total |
|--|-----------------------------|---------|---------|---------|-------|
| | Grade I | Grade 2 | Grade 3 | Grade 4 | |
| Samples taken at Manufacturing Premises .. | 4 | - | - | - | 4 |
| Samples taken from Retailers in the Borough ,. | 22 | 1 | 1 | - | 24 |
| TOTALS | 26 | 1 | 1 | - | 28 |

ICE CREAM, Contd

Four samples of ice cream were taken under the Food and Drugs Act, for chemical analysis. The average fat content of these samples was 11.0% and the average non-fatty solids 11.8%

SLAUGHTERHOUSES

During 1960, there were three private slaughterhouses licensed in the Borough.

There are no slaughterhouses in the Borough licensed for the slaughter of horses.

MEAT INSPECTION

The following tables show the types of animals slaughtered and inspected with particulars of the diseases found necessitating complete or partial condemnation.

Number of animals slaughtered during the past five years

| Year | Cattle excluding Cows | Cows | Calves | Sheep and Lambs | Pigs | Totals |
|------|-----------------------------|------|--------|-----------------------|-------|--------|
| 1960 | 383 | 17 | 93 | 996 | 668 | 2,177 |
| 1959 | 2,137 | 121 | 50 | 8,848 | 4,194 | 15,350 |
| 1958 | 2,399 | 105 | 67 | 7,029 | 4,540 | 14,140 |

CONDEMNED FOOD

The condemned meat and offal from the licensed slaughterhouses and other condemned food was disposed of either by processing into animal feeding stuffs at the Cleansing Department's Kitchen Waste Processing Plant, or by burning or burial at the Refuse Disposal Works.

SLAUGHTER OF ANIMALS ACTS 1933-1954

The number of slaughtermen's licences issued in 1960 was 25.

CYSTICERCUS BOVIS

The routine inspection of all bovine carcasses is carried out for the presence of cysticercus bovis. The organs of 2 carcasses were found to be affected during the year and arrangements were made for the carcasses to be placed in cold store for a period of three weeks in accordance with approved policy.

KNACKER'S YARDS

There are two Knacker's yards in the Borough. Neither of these premises is licensed for the slaughter of horses.

FOOD AND DRUGS ACT 1955

During the year 28 formal and 159 informal samples were submitted to the Public Analyst for analysis.

| Nature of sample | No. of Samples | | Number of samples adulterated or not genuine |
|------------------------|----------------|--------|--|
| | Informal | Formal | |
| Milk | 2 | 16 | - |
| Meat and Meat Products | 35 | - | 3 |
| Fish and Fish Products | 9 | - | - |
| General Groceries | 68 | - | 1 |
| Preserves | 4 | - | - |

| Confectionery | 20 | - | 2 |
| Cordials | 1 | - | - |
| Medicines etc. | 16 | - | 1 |
| Beer and Spirits | - | 12 | - |
| | 159 | 28 | |
| | 187 | | 7 |

FOOD AND DRUGS ACT 1955, Cont.

The table below shows details of the samples found not to be genuine and of the relative action taken..

| Sample Number | Article | Adulteration or other irregularity | Action taken |
|------------------|------------------------------|------------------------------------|----------------------------------|
| 1955 Informal | Minced Beef (with Onions) | Improperly labelled | Stock withdrawn for re-labelling |
| 2017 Informal | Cream Slices | Filling not genuine cream | Suitable notices exhibited |
| 2019 Informal | Pork Sausage | Deficient in meat content | Vendor cautioned |
| 2028 Informal | Vinegar | Improperly labelled | Matter still under discussion |
| 2039 Informal | Epsom Salts B.P. | Some discolouration present | Stock withdrawn |
| 2113 Informal | Ham & Tongue | Improperly labelled | Matter still under discussion |
| 2134 | Portion of Fruit Tart | Contained portion of cockroach | Proceedings pending |

ATMOSPHERIC POLLUTION

Five atmospheric pollution recording stations are in operation in the Borough and, apart from outside interference or damage, have operated satisfactorily during the year. The analyses of the readings of the various stations are shown in the appended tables and graphs.

Five applications were received for "prior approval" under Section 3 of the Clean Air Act, 1956, and three notifications were received of "intention to install" furnaces. The Health Committee approved of all the applications for "prior approval".
